

QUAKER FOODS PARK

Client: City of Peterborough

Completion Date: 2023

Services Provided :

- Site Servicing
- Stormwater Management
- Project Management
- Contract Administration
- Site Inspections

Engage completed the civil engineering design for the Quaker Foods Park in downtown Peterborough, in collaboration with Lett Architects, Basterfield & Associates, Cambium Inc., and the City of Peterborough among others. This urban park is centred in the downtown core and features a skating rink, accessible pathways, a water feature, benches and is the new host location for the summertime Farmer's Market. The scope of work included a review of existing infrastructure, park servicing and grading, reconstruction of Charlotte Street sidewalk, and coordination with the landscape and architectural components of the site.
